25X1

1. [] Comment. Large GORG and army supply installations. For details []
2. [] Comment. Probably, troop shipments. 25X1
3. [] Comment. These shipments include the supply from the USSR. []
4. [] Comment. Compared with the preceding month, the fuel delivery increased, reaching the delivery volume of the preceding months. 25X1A
5. [] Comment. Thirty-four of the 53 railroad stations mentioned were compared with stations listed in the preceding month. The present list deviates from the previous inasmuch as considerably more shipments were loaded in Bernau and Frankfurt/Oder / Rosengarten, Puerstenwalde, Justerbog - Altes Lager and Kirchneiser. The increased shipments in Bernau and Frankfurt/Oder / Rosengarten may have been caused by the delivery of winter clothing, while the increase in the other towns cannot be interpreted. A decrease which cannot be accounted for was discernible in Konigsunterhausen, Puerstenwalde-Waldfriden and Wildpark. With actual and probable troop shipments omitted, there remain 2,916 carloads in military supply traffic in August as compared with 3,113 carloads in July. As the number of loadings only slightly decreased, supply traffic can be considered normal.
6. [] Comment. Receiving stations, weight of shipments as well as the receiver Mueckenko (far) in Dresden definitely indicate that the trains carried articles of clothing.
7. [] Comment. Probably, fuel shipment from Doeberitz airfield which had been vacated by the flying unit to Alt Lehnwitz airfield.
8. [] Comment. Raw material for the construction of cylinder blocks.
9. [] Comment. Two shipments of the 32d AAA Div (US).
